

09.00-09.30	<i>registration</i>			
09.30-09.45	<i>opening</i>			
09.45-10.15	keynote presentation	Tomàs Artés et al.	JRC, IT	Near-Real Time Active Fire Mapping and Forest Fire Spread Prediction
10.15-10.35	oral presentation	Adélia Nunes et al.	U. Coimbra & U. Lisboa, PT	Characterizing vulnerability for wildfire management
10.35-11.00	<i>coffee break</i>			
11.00-11.30	keynote presentation	João Pinho	ICNF, PT	A gestão após incêndio nas políticas florestais em Portugal. Uma perspectiva histórica e de futuro
11.30-11.50	oral presentation	Daniel Moya et al.	U. Castilla L.M., ES & U. Arizona, USA	Possible risks and effects of prescribed burning: INIA national project GEPRIF (RTA2014-00011-C06-05)
11.50-12.10	oral presentation	Ruth Garcia-Jiménez et al.	CREAF, ES	Forest thinning decreases fire severity and it has contrasting effects on the regeneration of Pinus halepensis and resprouter species
12.10-12.30	oral presentation	Julian Campo et al.	DRC, ES & U. Amsterdam, NL	Can forest fires be a source of contamination?
12.30-14.00	<i>lunch</i>			
14.00-14.30	keynote presentation	Alejandro Valdecantos et al.	CEAM & U. Barcelona, ES	Post-fire restoration of Mediterranean ecosystems.
14.30-14.50	oral presentation	Ana Barreiro et al.	U.S. Compostela, ES	Medium term effect of fire and post-fire application of two soil stabilization treatments (straw mulching/seeding) on the soil quality
14.50-15.20	oral presentation	José M. Fernández-Guisuraga et al.	U. León, ES	Potencialidad de las imágenes de satélite de alta resolución espacial en la evaluación de las actuaciones de restauración post-incendio
15.20-16.00	<i>coffee break</i>			
16.00-16.30	keynote presentation	José A. Vega et al.	CIF Lourizan, ES	Linking post-fire soil conservation research and management: experience from Galicia
16.30-17.00	<i>closing oral sessions</i>			
17.00-17.30	<i>poster presentations</i>			
17.30-18.30	FuegoRED general assembly
